# The STEM of Aviation

## Middle School, High School students will learn:

- How daughter of Mexican immigrants became military aviator
- What to do in middle/high school to prep for aviation career
- How to create solutions to address cultural/financial obstacles
- A Latina's stories of military service around the globe
- How science, technology, engineering and math disciplines intersect to make planes fly

In this unique content set, a first generation Latina born to Mexican immigrant parents of little means shares with students how she became an unlikely military aviator, after graduating from one of our nation's most prestigious universities and becoming a military officer.

Through her ability to relate deeply personal insights into what holds many Latino students back from completing high school and pursuing higher education, she encourages students to aspire to become successful, highly educated adults. She motivates students to dream way beyond what they see in their communities and to take the long-term view of education.

After establishing a connection with her audience, Graciela shares specific examples of how science, technology, engineering and mathematics knowledge is critical to flying onboard airplanes in both the civilian and military communities. She teaches students what they need to do to prepare for an aviation career or other professions requiring continuous learning.

Time permitting, Captain Tiscareño-Sato surprises the students with her Air Force flight suits, gloves, scarves, checklists and aviation maps. Students don the uniforms and explore the tools used in the cockpit. This last step makes it all a bit more real for students who likely have never met a military aviator. Seeing themselves in flight suits gives them a vision of a possible future career and encourages them to aim high in their dreams for their futures.

*This topic is available as a keynote speech, a half-day or full-day workshop*

## What People Are Saying

"The pictures are great, the students are beaming with joy. Your presentation was awesome. You succeeded in weaving the details of your personal and professional life into a story which was both inspiring and motivational. You demonstrated for students and their teachers that whatever is needed to fulfill their dreams is within their grasps. Your encouraging message opened their minds, planted seeds of hope in their hearts and showed them that their aspirations are worthy goals. I look forward to having an opportunity to work with you again in the future."  
—Dr. Evelyn C. Wesley, President, Emeritus, Merritt College and Director of Making Waves Academy (for middle school students)

"Graciela, the kids are still talking about your visit. We really appreciate the time you took to meet and talk to our students. My only regret is that we couldn't get you to everyone in the school."  
—Ray Leonard, science teacher, Ellen Glasgow Middle School

"You were exactly what we were hoping for in a distinguished lecturer and what you shared with the students exceeded our expectations!"  
—Arin Ely, Student Development Coordinator & Academic Advisor, TSU-San Marcos

## Biography

Captain Graciela Tiscareño-Sato is a graduate of the University of California at Berkeley, School of Environmental Design. She earned a degree in architecture while also completing the Aerospace Studies program as an AFROTC (Air Force Reserve Officer Training Program) scholarship cadet. The author actively mentors students who need education and career roadmaps, a central focus of her book titled *Latininnovating*. Her thought leadership pieces have published in the U.S. and Europe including *American Careers*, *Faces*, *Environmental Leader*, *Hispanic MBA*, *Communications News* and many others. She earned a Masters degree in International Management from Whitworth University in Spokane, Washington while on active duty with the U.S. Air Force. In November 2010, she received "[Entrepreneur of the Year](#)" honors at the *LATINStyle Magazine* Gala in Washington D.C. She is a key organizer of the Silicon Valley Latino Leadership Summit and owns her own marketing and communications firm, Gracefully Global Group, LLC. She's preparing to publish her first children's book *Good Night Captain Mama* in 2012.
